DASCD35 Staggered renewal process for electronic licensing

No provision.

R.C. 4745.05, 4745.01
 Requires occupational licensing agencies that use the electronic licensing system operated by DAS to adopt rules incorporating into the agency's licensing process (1) a minimum license duration of 2 years, and (2) a staggered renewal schedule so that an approximately equal number licenses are subject to renewal during each year of the duration of a particular license.

No provision.

No provision.

No provision.

Allows a licensing agency, after a reasonable period of time, to opt out of the above requirements if conformance did not establish a more uniform funding stream for the agency and has had an adverse effect on both the agency staff and the community regulated by the agency.

No provision.

No provision.

Fiscal effect: Although requiring staggered renewal periods would alter the timing of license revenue receipts, overall revenue for occupational licensing and regulatory boards should not be affected. There may, however, be some administrative costs for converting to a two-year renewal process.
